

KS Cavalry Chapter:

The newest chapter in the region formed in 2007, to date there are 15 members, not bad for only being organized for 6 months. Like most other chapters, their primary activities include games, community involvement, socializing, and campouts. A couple of the members are avid fishermen, so there are long tales to tell sitting around the campfires. Chapter members invite anyone to contact them, who may be interested in learning more about the chapter, or in joining them for a muster. They are a small group - with big open arms.
