

## Nomads Chapter:

The major emphasis of this chapter, as the name implies, is for folks who wander most of the year in their RVs. It is also for those who would like to wander some time in the future, or used to wander. Most are currently Full-timers, but some **NOMAD's** just wander for part of the year. The emphasis of this Chapter is for fun, not structure. The big **NOMAD** meetings are just before and just after the yearly National Muster. That is when we get the most **NOMAD's** in the same location at one time. We enjoy touring local areas together, having communal meals, and have been known to have really entertaining campfires and happy hours. For the rest of the year we keep in touch via our quarterly newsletter, **THE SMOKE SIGNAL**, cell phones and e-mail. Whenever we learn that another **NOMAD** is to be in the same geographic area, we set up impromptu "mini musters" where just two or three rigs get together. We also meet at any of the Regional Musters where two or more **NOMAD's** are in attendance. The **NOMAD** Chapter is one of the half dozen **SMART** Chapters that have no geographic orientation. It does not matter where you live or what you live in to join an At-Large Chapter, just as long as you want to enjoy the company of other like-minded travelers.
